Some public records requests are able to be fulfilled without a charge. Senate Rule 1.48(5) allows a reasonable special service charge in addition to the actual cost of duplication for public records requests that require an extensive use of Senate resources and labor cost of the employees providing the service.

"Extensive Use" is defined as any public records request that requires **more than two hours** of Senate resources to research, process and redact exempt information. This public records request is expected to require extensive Senate resources to fulfill.

Payment equaling 75% of the estimated cost is due prior to proceeding with processing the request. Requests will not be processed until payment is received.

**Note:** An extensive use fee estimate is calculated by the estimated time it will take to review the number of e-mails and/or hardcopy pages (including .pdf documents and attachments) that have been identified through searches as possibly being responsive to a request.
